

Global Institute for IT Management

Preparing IT and non-IT professionals for the enduring digital transformation

where organizations are leveraging emerging information technologies for revenue generating initiatives

- A comprehensive set of 32 IT management certificates (over 130 courses), available around the globe; including Master's Degrees & leading certifications.
- Courses are taught by an international team of over 250 prominent professors from multiple universities and expert practitioners, providing a balanced perspective with the appropriate combination of academic rigor and practical relevance.
- It is our affiliates (faculty and collaborating organizations / universities) and adherence to accreditation standards that has established our credibility and brand.
- Programs for IT and non-IT executives from entry level to C level. The sweet spot for GIIIM Certificates are IT professionals with 10+ years of experience.
- Scalable, and flexible/personalized courses, certificates, workshops, seminars, speaking engagements, & schedules, focusing on the foremost practical approaches for managing opportunities to leverage IT.
- Courses taught face-to-face & online.

Global Institute for IT Management
